

HT-OM320

Wired/Bluetooth Speakerphone

- 360° omnidirectional pick-up direction, 3m(radius)pick-up distance
- 384ms echo cancellation, Full-duplex call technology, Intelligent Dynamic Noise Reduction
- No need to drive, plug and play, simple to operate
- Small size, device and cable are integrated, easy to carry

System Overview

HT-OM320 is a portable omnidirectional microphone conference speaker that is used as conference audio input and output for smart mobile devices such as computers or mobile phones. It applies the latest generation of voice processing algorithm of acoustic echo cancellation and dynamic noise reduction, which guarantees a clear and natural voice quality of call. This product is suitable for small conference room and personal office.

Technical Specification

Audio

Directionality	omnidirectional
Pick-up Distance	3m(Radius)
Sensitivity	-38dB
Signal to Noise Ratio	65dB

Connectivity

Connection	USB, Bluetooth
Interface	USB 2.0 (Power and Audio)

Consumption

Power of Speaker	4.05W
------------------	-------

Power

Power Supply	USB 2.0 (5V500mA)
Battery Capacity	Built-in Lithium Battery (2000mA)

Compatibility

Computer System (USB)	Windows 8 / Windows 7 / Windows 10/mac OS, etc.
Mobile Phone Operating System (Bluetooth)	Android, IOS

General

Dimensions(DiameterxH)	120 x 39.5mm
Weight (net weight)	252g
Color	Carbonite Grey
