

HT-OM400

Wired/Bluetooth Speakerphone

- 3-array microphone design and array mic algorithms, greatly improves audio performance.
- 360° omnidirectional pick-up direction, 4m (radius) pick-up distance.
- Touch interactive keys, easy to operate.
- Support Type-C and Bluetooth connection, enables multiple connectivity.
- Support Cascade through Cascade line .

System Overview

HT-OM400 is dedicated designed for clear, efficient video and audio conferences. It's unmatched voice pick-up and delivery ability enable the device brings big audio performance for customers not only in small-to-medium but also in large video conference meeting rooms. Moreover, it's crystal-clear sound, portbal design and wireless connection allow people to use it with any mobile phone or PC based communication software (like skype, zoom, whatsapp) to enhance audio quality and comfort on-the-go, in home or office.

Technical Specification

Microphone

Directionality	Omnidirectional
Pick-up Distance	4m(Radius)
Frequency Response	150Hz ~ 16kHz

Speaker

Sound Channel	1
Output Power	1 × 5W
Signal to Noise Ratio	≥75dB

Connectivity

Connection	USB, Bluetooth
Interface	USB-Type C (Power and Audio)

Power

Power Supply	USB- Type C
Battery Charging	5V/2A
Battery Capacity	7.4V/2200mAh

General

Working Temperature	0-40°
Dimensions(W × H)	120 × 37mm
Package (W × D × H)	211 × 150 × 66mm
Weight (net weight)	390g
Weight (Gross weight)	540g
